MEDREG – ECRB Workshop

Future of Net-Metering and Renewable Energy Support Auction Mechanism in the MEDREG and ECRB Regions

Tuesday 18 June 2019, 09:30 – 13:00

Hotel Mak Albania, Tirana

Annual Forum on the liberalization of the gas markets and integration of RES into the grids (6 November, 2019 Brussels)

- THE RES WG RECOMMENDED TO ANALYZE THE DEVELOPMENT OF RES TECHNOLOGIES UNDER A DECENTRALISED ENVIRONMENT, THE REDUCTION OF RES COSTS, THE INCREASING IMPORTANCE AND NEEDS OF FLEXIBLE SOURCES TO BALANCE THE SYSTEMS AS WELL AS THE ROLE OF REGULATION IN FACILITATING THE INTEGRATION OF RENEWABLE IN THE NATIONAL ENERGY MIX. RENEWABLES SOURCES PLAY AN IMPORTANT ROLE IN THE PRODUCTION OF ENERGY IN THE MEDITERRANEAN COUNTRIES AND THEREFORE, THE MAIN OBJECTIVE OF THE FORUM SHOULD HIGHLIGHT THAT THE FUTURE IS ON THE RENEWABLES AND THE CHALLENGES OF IT.
- THE SECRETARIAT HAS INFORMED THE RES WG THAT A CONCEPT PAPER OF THE 2019 FORUM WILL BE CIRCULATED AFTER THE IDENTIFICATION OF THE TOPICS AGREED, KEEPING IN MIND TO HAVE A CLEAR VISION OVER 2040 BECAUSE INVESTMENT PLANNING IN THE ENERGY SECTOR REQUIRES A LONG TERM PERSPECTIVE OF 20 OR 30 YEARS.
